Tom Zach, left, president of the Amador Valley Teachers Association, and Pleasanton Joint School District Superintendent Bruce Newlin relax during break in discussion of collective bargaining issues at Pleasanton School media center.

Teachers may settle soon

PLEASANTON — Contract negotiations in the Pleasanton Joint School District may finally be on the path to settlement.

Trustees held a late evening session Wednesday to discuss the status of negotiations, after a discussion - debate earlier in the evening involving Superintendent Bruce Newlin and teachers unit president Tom Zach.

However, neither the administration or the Amador Valley Teachers Association (AVTA) would offer any statement on whether negotiations have definitely moved toward settlement as the result of the two gatherings.

Videotape of the discussion is available to community groups and teachers. Those wishing to see all or part of the 75-minute discourse on four collective bargaining issues should contact Robert Scruggs, director of the district media center, at 846-4611. The media center is located at Pleasanton School on First Street.

The discussion came about after two weeks of meetings between Newlin and Zach on the type of forum.

Both initially, but tentatively agreed to an open discussion of issues at Amador Valley High School auditorium. Newlin later expressed reservations and it was finally decided to close off the discussion to just newspaper representatives and the videotape crew, plus newspaper photographers.

The four issues that each had five minutes to expound on included SB 160, collective bargaining; binding arbitration; agency shop, and employe compensation.

Some of the most volatile comments from both came on binding arbitration of grievances.

Newlin said he believes binding arbitration to be "premature. Until we can work out definitions, it is too soon to submit to binding arbitration."

Zach said, "What the district has offered to date (in the area of binding arbitration) is nothing that we don't have now."

On the issue of salaries, Newlin said, "The prime issue is why salaries were frozen. Some thought this was done as a negotiations ploy but that is not correct. They're basically frozen because salaries are a part of the negotiations process.

"If we would have paid them unilaterally now, or last August, would we have been adherring to the spirit of the legislation?" Newlin questioned.

"Whatever salaries are agreed to will be paid retroactive to July 1," he added.

"If we move everybody ahead one increment on the salary schedule it really amounts to 4 per cent of our budget — not counting other increases or benefits," Newlin continued.

Zach contended that teacher salaries had fallen behind the cost - of - living index increases. He also said that many teachers believe they are being "doubly - taxed," living in the community in which they teach.

The Pleasanton district has refused to go to a "boycott" of extra activities or "slowdown" to date. District teachers have also declined to declare an impasse.

Murphy-Raymond debate rules set

PLEASANTON — Incumbent Supervisor John Murphy and challenger Valarie Raymond will hold a debate at the Pleasanton Hotel Oct. 19 that will be video taped and shown on cable television the next two consecutive nights.

Representatives from both camps met last night and tentatively agreed to ground rules for the forum, which will include questions both from members of the valley press and the audience.

Sponsored by Citizens Against Redevelopment (CARD), the debate is intended to let the public decide which candidate should occupy the First District's supervisor seat for the next four years.

Livermore Municipal Court Judge Mark Eaton has agreed to moderate the debate.

Beginning at 7:30 p.m. the two candidates will field questions no more than 10 seconds in length from representatives of the three valley newspapers, with a coin toss deciding who will receive the first question.

Each candidate will be allowed three minutes to answer, with his or her opponent given two minutes for rebuttal.

Three questions will be asked of each candidate. This portion of the debate is expected to take 30 minutes and will probably be shown the next night.

After a brief pause to allow for a video tape change, each candidate will ask the other one 10 second question. Again, a three minute answer and two minute rebuttal will follow.

Murphy and Raymond will then be given three minutes to make a closing statement. Order of appearance is determined by the coin toss.

Questions from the audience will then be entertained. The questions, written before the debate begins, will be screened in advance by members of the opposite camp to prevent personal attacks or political statements.

Two minutes will be allowed for each response, with a one minute rebuttal.

Darla Stevens will coordinate the filming, using a single camera and microphone to cover the debate.

The tape will be run in two half - hour segments, probably on Oct. 20 and 21, although a firm date has not been set. The taping will be in black and white.

Swine flu clinic back Saturday in Livermore

Alameda County Bureau

The swine flu immunization program briefly halted in Alameda County following the deaths of nearly three - dozen people in 20 states will resume Saturday, county health officials said, following an announcement the first three deaths were "a coincidence."

Contra Costa County officials concurred, saying their vaccination program "is on as scheduled."

Three immunization clinics in Alameda County were canceled this week, but a pediatric vaccination session scheduled for Saturday will be held. Senior citizen innoculations will resume Monday from 10:30 a.m. to 3 p.m. at Kottinger Place in Pleasanton.

The pediatric clinic is limited to chronically ill children between the ages of three and 17. Only those with heart, lung, metabolic (diabetes, cystic fibrosis), neuromuscular (cerebral palsy) disorders, or immunological deficiencies, or a malignancy will be vaccinated. The innoculations will be offered at Valley Memorial Hospital in Livermore between 10 a.m. and 2:30 p.m.

Contra Costa will hold a senior citizens' clinic at Shannon Community Center in Dublin between 9 and noon, Oct. 27. The general public will receive innoculations between 11 a.m. and 4 p.m., Oct. 30, at California High School, and 4 p.m. to 8:30 p.m., Nov. 3, at the Family Medical Center of Valley Memorial Hospital in San Ramon.

Immunization for the general public will be given Oct. 24 and 31 at the Alameda County Fairgrounds in Pleasanton.

The Alameda County Health Services Agency's Information and Referral Service said they started getting calls as soon as the first reports of the deaths reached the public. A spokeswoman said they simply are explaining the facts and referring those concerned to their individual doctors.

New reports surfaced Thursday of elderly or chronically ill people — more than three dozen in all — who died anywhere from a few hours to a few days after they were vaccinated. But officials in virtually every case said the immunizations were not to blame.

Panel for Withers, job still in doubt

PLEASANTON — Fire Department Lieutenant George Withers won his case before the city's personnel board yesterday, but it remains to be seen whether he will be reinstated to the captain's position he held for several years before his demotion.

The personnel board, on a 4-2 vote yesterday morning, declared that Withers deserves his old rank back and all back pay since the demotion in June. Withers' pay was cut by $300 a month because of the demotion.

However, the personnel board's vote has no effect on Withers' status: that decision will be up to City Manager Bill Edgar who ordered Withers demoted. The personnel committee's decision is only advisory to Edgar.

Edgar ordered the demotion because Withers, as the chief Pleasanton fire officer on the scene at the Fallon House fire, should have stopped the fire in time to save the house, he felt.

Withers also was criticized for a poor job performance for the 14 months prior to the Fallon House fire.

City Attorney Ken Scheidig quizzed Acting Fire Chief Bert Cherry, Captain Doug Cracraft and Director of Public Safety Walt McCloud on Withers' performance. The implication of their testimony was that Withers lacked initiative on the job and others, notably Cracraft, performed better in the same job.

But on the other side of the ledger, former Fire Chief Jon Frudden said that when Cracraft and Cherry served as captains under him, they generated "morale problems" and were considered by the men as "overbearing". Withers, on the other hand, generated good morale among the firefighters, said Frudden.

On the Fallon House fire issue, Scheidig tried to obtain testimony to the effect that Withers should have been calling the shots and been sensitive to people's protests that the Twin Valley Fire Training Academy was really burning the Fallon House, not some historically unmeritorious structure.

VCSD Fire Chief Phil Phillips noted that Withers definitely was in the command position on the scene, but Herald and News reporter John Oliver, appearing as a pro - administration witness, actually helped Withers, the demoted lieutenant noted yesterday.

Oliver testified that when he asked whether the building was the Fallon House, Withers referred him to Fire Marshal Ted Klenk who set up the arrangmements for burning the house. Klenk was so certain it was not the Fallon House that he even changed Oliver's mind and Oliver had taken pictures of the place for the Herald. It seemed to put the responsibility, at that point of the fire anyway, solidly on Klenk.

In the 4-2 vote yesterday, the ayes were provided by Planning Secretary Yvonne McFadden, Firefighter Bill Bonderud, Police Officer Craig Veteran, and Department of Public Works Employee Mike Gomez. Assistant City Manager Alan Campbell and Assistant to the City Manager Jim Walker voted against the committee's recommendation.

Walker, Campbell and McFadden were appointed to the committee by City Manager Edgar and the other three are on the committee as representatives of employee organizations.

Livermore couple's suit ludicrous—UC

LIVERMORE — A one-month extension has been granted the University of California to respond to a $300,000 civil suit charging the institution with discriminating against a racially - mixed couple from Livermore.

The suit was filed in U.S. District Court in San Francisco Sept. 9 by Roletta M. Loscher, 41, a black, and her husband, Richard H. Loscher, 51, a white.

The Loschers contend in the suit that they have suffered harassment, embarrassment, and have lost promotion opportunities because of racial discrimination practiced by the university.

Roletta Loscher, a campus police officer at the Berkeley campus, says she held the rank of sergeant one year before being demoted to protective service officer in October, 1974. The university suspended her without pay as protective service officer, she claims, because she is black and her husband is white.

After the suspension was lifted, her requests for better job assignments were denied due to her continued relationship with her white husband. The suit also claims that university personnel advised her not to apply for other promotions until the relationship ended.

Richard Loscher was suspended in October, 1974 from his sergeant's pay position without pay and later demoted after he would not accept a forced resignation, the suit charges.

It asks the court to permanently enjoin the university from further alleged violations of civil service laws, reassign the Loschers to posts they would have held but for that discrimination, and award both claimants back pay.

It also seeks $50,000 in compensatory damages for each plaintiff, and $100,000 each in exemplary damages.

Lorraine Braunstein, an Oakland attorney representing the Loschers, says the summons and complaint were served on the university Sept. 9. The university had 20 days to respond, but was granted a one-month extension to further review the suit.

Braunstein said she is beginning to compile a discovery motion to get personnel files and other records from the university, on the assumption the university will reject a settlement outright.

Aletha Titmus, associate counsel of university regents, called the filing a "specious suit with little basis in fact. It's so ludicrous it's incredible," she said.

Titmus said she has had little chance to review the suit, hence the extension request.

Richard Loscher continues to work the graveyard shift at the Lawrence Livermore Laboratory, a spokesman there confirmed. Roletta Loscher also continues her campus police duties at the Berkeley campus.

The case will probably resume in two weeks, when both sides are expected to file discovery motions.

New school guidelines

Protection from deadly smog

If your kid is practicing for a track meet and collapses because of the irritants he's breathing, you can sue.

The county school department has just sent all local school districts copies of recommended precautions to take when there's a "Level 1 smong alert or advisory" — a condition that prevails several days out of the year in the Valley.

School administrators and teachers are now responsible for keeping all children from vigorous exercise — sports practice and playground activities — during the dangerous periods.

If they decide to allow outdoor exercise, they can be held liable if a child suffers from the polluted air.

The new "Air Pollution Notification Procedures" sent to the schools include:

During a smog alert, **Remain indoors whenever possible, keeping doors and windows closed.**

Avoid dusts, smoke, fumes, sprays and other irritants.

If an air conditioner is available, turn it on. The best air conditioners use an activated charcoal filter.

Avoid strenuous physical activities.

Avoid areas of congested traffic.

If under a physician's care, people are urged to contact a doctor for treatment of any respiratory problem.

During an "advisory," schools should cancel all outdoor movement activities, such as physical education classes, intramural sports programs and interscholastic contests for all students.

All strenuous and active outdoor physical activities for employes should be on a limited basis in identified air pollution areas.

The new rules are based on scientific studies which show that air pollutants such as carbon monoxide, ozone, sulfur dioxide and particles cut down on the body's oxygen supply by replacing oxygen carried in the bloodstream, and irritate delicate tissues in the eyes, nose, throat and lungs.

Three officials from the Alameda County Lung Association — director Mary Hardy, executive director Duane Sewell and lung specialist Dr. Mitchell Tarkoff — elaborated on the recommendations at a meeting in Pleasanton yesterday for teachers and school nurses.

Unfortunately, the mailed notifications failed to reach school staff, and only four people showed up for the film and discussion. The meeting is expected to be re - scheduled and a new date announced.

Donlon improvements

They still want a study

(This is the second of three articles on the push for improved facilities at Donlon School in Pleasanton, the largest enrollment school in the Murray School District).

A single sentence in the Citizens Advisory Committee report to the Murray School District on future organizational structure of schools tells the board that the panel "did not study the question of improvements to Donlon School."

Implicit in that statement is the hope the board eventually will mount a study.

The statement was included after Linda Nooley, a CAC member who represented Donlon School, had initially urged the group to insert a recommendation that the board form a "Donlon study committee."

CAC members balked at this as three of five Murray school board members sat in at the panel's final deliberations.

If a study committee is to be formed, it could be organized at most any time. Trustees have stated they hope to come to a decision on the overall CAC report and recommendation by the end of November.

If trustees believe the Donlon situation is actually a crucial part of the school organization problem, they would probably have to organize a Donlon committee almost immediately.

Next meeting of Murray trustees is Monday at Dublin School — a somewhat appropos situation since Dublin is the school that has been recommended for conversion (to seventh - eighth grade use by September of 1977).

The last board meeting, which drew 175 persons, was held at Donlon.

Donlon's crowded facilities and lack of a multi - purpose room have been the source of an exchange of letters between Ginni Lunger, president of the Donlon Parent - Faculty Club, and the Murray School District administration.

In league with Mrs. Cooley, the two have championed the Donlon "cause," specifically what they feel is a dire need for a true multi - purpose room.

Recalling Mrs. Cooley's request to the CAC for setting up of a "Donlon study committee," Mrs. Lunger cites a letter received from Superintendent Donald Williams last May on the subject.

In it Williams says, "The board members appreciated your comments at the board meeting, with regard to the building of a multi - purpose room at Donlon School. You recall, in answer to your question, Dr. Ted Woy stated that this would be an appropriate suggestion to be taken up by the newly - appointed citizens' committee (CAC), whose charge is to determine housing needs for seventh and eighth grade youngsters.

"I am sure that the committee will consider thoroughly and carefully your request for a multi - purpose room." The letter was over Williams' signature.

As noted earlier, the committee did not consider or study in any detail the idea of a multi - purpose room or any other specific improvement at Donlon School.

Center of pod at Donlon School is utilized for library services, student meetings. School, which has enrollment of over 1,200, has no auditorium, multi - purpose room or kitchen facilities.

March of Dimes attraction

Taking a tethered ride in a Hot Air Balloon for the March of Dimes is an added attraction to the "Big Wheels" race this year. A charge of two cents a pound or a minimum of $1 per child under 12 and $2 per adult will be donated to the March of Dimes. The "Wheels" race is scheduled for Saturday, Oct. 23 at 8:30 a.m. at the Alameda County Fairgrounds with three age categories participating: three years and under; four and five; and seven and eight years old. There is no charge for the race. Pre-registration will be held Saturday, Oct. 16 from 10 a.m. to 4 p.m. at Safeway, Alpha Beta and Lucky in Pleasanton; Mervyn's and McDonalds in Dublin and McDonalds in Livermore.

Teacher bids to join planners

LIVERMORE — Warren Thompson, local educator and former city council candidate, has joined the list of three other people wanting to be named to fill the vacancy on the planning commission.

Thompson is a coordinator in the handicapped people's work experience program of the Livermore Valley Unified School District.

He ran unsuccessfully for a council seat in 1967 and 1970.

Thompson told The Times the commission "should be concerned about more adequate representation, giving business a break, encouraging light, smog - free industry, including the schools in planning and making this a city that gives the total spectrum of youngsters an opportunity in the area of vocational education, not just an elitist few."

"My specialty is communications and thinking," he said. "This should be a refreshing addition to the status quo."

Thompson is a member of the Personnel & Industrial Relations Association, American Legion and Veterans of Foreign Wars. He also belongs to several education associations.

Other planning commission hopefuls include Airport Commissioner William E. Zagotta, Michael E. Soffa and Richard Buckley.

The city council expects to fill the seat vacated by former commission chairman Bob Selden on Nov. 1.

Zoning decision satisfies all

PLEASANTON — Harry Elliott got what he wanted and so did the neighbors near his proposed commercial development on Pico Avenue and Palomino Drive Wednesday night.

The planning commission allowed Elliott to reduce the proposed 10 acre commercial parcel to seven acres and increase the adjacent four acres of multiples to seven acres.

Neighbors told the commission they didn't want to see any increase in the number of apartments planned for the total 14 acre strip so the commission obliged them by stipulating the new seven acre multiple parcel can't have any more residential units than the old four acre parcel.

That was fine with Elliott, too, who already had told the staff he would agree to cut densities on the combined multiple area so it had only seven more multiple units than the original smaller parcel.

The conversation also included residents' pleas to Elliott to get a major supermarket in the center so that Vintage Hills residents won't have to drive across town to do their shopping.

Elliott was sympathetic to their pleas, since developers make money by installing good anchor tenants, but he noted that major supermarkets have been shy because Vintage Hills has grown slowly over the past few years owing to the few sewer connections available in the Sunol Boulevard Sewage Treatment Plant. However, he's still working on commercial center developers and he hopes he can have a center soon. He feels he's in a chicken and egg situation, though, because the city wants to see a development plan before it will grant him sewer connections and shopping center developers want to see the sewer connection commitment before they'll agree to develop.

On another item, commissioners said they will ask the city staff to explore the possibility of preparing a comprehensive document telling residents what is expected of them in the way of fence and swimming pool setbacks, fence heights and other small but important zoning matters which sometimes find their way to the city's board of adjustment.

Commissioners would like the material handed out when a new homeowner comes in to have his or her water turned on.

Alamo fire injures two

ALAMO — Two persons were slightly injured during a fire that caused an estimated $130,000 damage to their two-story home Wednesday night.

The fire started at the Robert Cook home, 2294 Miranda Ave., when a pan of grease caught fire on the stove about 7:40 p.m., a Danville Fire Protection District spokesman said.

Mrs. Cook and her daughter, Mary, slightly cut their feet and arms when they tried to get into the house to rescue the family's dog, he said.

Dublin teenager dies in collision

HAYWARD — A 17-year-old Dublin girl was killed Tuesday when the car in which she was riding went out of control and collided with a truck, the highway patrol reported.

Sarah Bennett, 17, of 6897 Amador Valley Blvd., was pronounced dead at St. Rose Hospital in Hayward. She was the daughter of Mr. and Mrs. William Roy Bennett Jr.

According to the highway patrol, Miss Bennett was traveling in a car driven by Steven David Silva, 21, of Hayward about 4:15 p.m. Tuesday when Silva reportedly swerved to avoid hitting another car turning in front of him. The car went out of control and collided with an oncoming truck.

The truck driver, Ronald Ferri, 35, of Adelle Street in Livermore, told officers at the scene he was unable to avoid the collision. Neither he nor Silva was injured, officers added.

Funeral arrangements are pending.

100 scholarships

PTA offers teacher funds

Public school teachers are being offered a total of 100 Continuing Education scholarships by the California State PTA in commemoration of the 50th anniversary of the organization's Honorary Service Award Program.

The $75 maximum - value scholarships will be available for use during the winter and spring quarters of the current academic year ... Jan. 1, 1977, through May 15, 1977.

Applications and specific details may be obtained from local district PTA presidents and area counselors, according to Mrs. Austin J. Rudnicki of Santa Barbara, scholarship program coordinator.

Deadline for returning all forms to the State PTA office, 930 Georgia St., Los Angeles 90015, is Nov. 1, 1976.

These limited scholarships are being offered in support of a belief that continuing education is of prime importance in expanding teacher horizons and improving the quality of their classroom instruction.

Interested teachers are urged to make immediate application in order to meet the deadline requirement.

Fifth Street carnival set Sat. in Livermore

Rio it ain't, but Fifth Street School's carnival will have "something for everyone."

The Livermore elementary school will be the scene of relay races, face painting, basketball toss contests, and even a "journey to the land of the lost," as the fair gets underway Saturday at 10 a.m. The carnival continues until 2 p.m.

Benefit drawing tickets will be available — win a Thanksgiving turkey or a ham. Have some Christmas shopping to do? Visit the silent auction table and bid on macrame hangers, crocheted pot holders, homemade place mats and other delights.

Hot dogs, popcorn, ice cream and juice will be sold by the PS'5 parents who are sponsoring the carnival. Proceeds will buy a microwave ovem for the teachers' room and increase the funds for student field trips.

Cronin school aides meet

DUBLIN— The Cronin School Early Childhood Education Parent Advisory Board will meet Monday, Oct. 18, at the school.

Also on the schedule for Cronin is the annual PTA Carnival Saturday from 11 a.m. to 3 p.m. An advance ticket sale is scheduled Friday from 11:45 a.m. to 12:50 p.m. Ticket prices are 15 cents each or seven for $1. Donations of cakes for the cake walk should be brought to the school Friday afternoon before 4 p.m.

Mills invites teen girls to special science seminar

OAKLAND — Know any teen - aged girls who are interested in science?

A conference at Mills College on Saturday, Oct. 23, is designed especially for young women in 7th through 12th grades who may be interested in discussions like these:

"Critter Capers — How an Animal Communicates and Avoids Its Enemies" (7th - 8th grade)

How to Lie with Statistics" (11th - 12th grade)

"A Close Look at Rocks and Crystals, and Discussion of Earthquakes and Faults in the East Bay" (9th - 10th grade)

Entitled "Women in Science and Technology," the conference is designed to give young women insight into the expanding career opportunities available to them in these fields and to focus attention on the need for sufficient science and math preparation.

According to Dr. Lenore Blum, head of the Mills department of mathematics and computer science, many girls have been "turned off" to math by the time they enter high school and steer away from math - related courses.

"Without a good math background," says Dr. Blum, "many careers, including those in chemistry, physics, engineering, architecture and medicine, are closed to women. We hope the conference will excite young women to acquire additional math and science preparation and to begin thinking of possible careers in science and technology."

While the students are in workshops from 9 a.m. to 3 p.m., parents and teachers will attend special sessions with representatives from local colleges and universities to discuss scholarship opportunities and entrance requirements.

Outstanding women from various scientific fields will conduct "hands - on" workshops in mathematics and science. The afternoon session will feature career workshops in biology, chemistry, computer science, engineering, medicine, pharmacology, physics, statistics and astronomy.

Dr. Marian C. Diamond, professor of physiology and anatomy at the University of California, Berkeley, will deliver the keynote address: "Does Gray Matter Matter?"

Students interested in attending the workshop should contact the Mills College Admissions Office, 632 - 2700, ext. 281, by Oct. 18. A registration fee of $2 includes lunch.

Foothill High slates Spirit Week activities

PLEASANTON— "Story Book Characters" is the theme of Spirit Week, to be held Oct. 18-22 at Foothill High School.

The daily class dressup days and Blue & Gold Day Friday will be climaxed by Foothill's East Bay Athletic League contest with Dublin Friday night and crowning of a homecoming queen.

The three finalists for queen were to be named Thursday.

The schedule for dressup days finds the freshmen leading off on Monday, sophomores Tuesday, juniors Wednesday and seniors Thursday. Students are encouraged to dress in blue and gold on Friday.

There will also be daily noon rallies and Teacher Advisory Group (TAG) competition. Each group will select two students to compete in games such as an egg toss. The competitions will be held during the brunch period, 9:45 to 10 a.m.

Foothill classes will stage a parade along Main Street on Friday, Oct. 22 starting at approximately 2 p.m.

The football game with Dublin is scheduled for Patterson Field at Amador Valley High School.

Dublin VFW sponsors student speech contest

DUBLIN — What does America mean to you?

If you're in 10th, 11th or 12th grade, you can compete in this year's 29th annual Veterans of Foreign Wars speech contest, talking about "What America Means to Me."

Charles Auer VFW post and auxiliary of Dublin are sponsoring the local event. To enter, record your speech, 3 - 5 minutes in length, on 7½ inch per second reel type magnetic tape.

Chairpersons Dawn and John Rutter must have the entry by Dec. 6. They can be contacted at 828 - 4474 for details.

Science pupils in Livermore eye history

LIVERMORE — Junction Avenue School social science students will be studying the Amador - Livermore Valley Museum's traveling exhibit next week.

Docents from the Historical Society will bring in Livermore Valley fossils and artifacts and will demonstrate how to make adobe brick and how coopers made barrels.

The exhibit is for students in Jean Becker's seventh and eighth grades and will help the students understand early inhabitants of the Valley and the colonial period.

Abdu'l Baha

Baha'i Faith

PLEASANTON — The Baha'is of Pleasanton invite the public to celebrate with them the second annual commemoration of the anniversary of the visit of Abdu'l Baha to Pleasanton in 1912.

The visit of Abdu'l Baha had great significance to the Baha'is because of his long imprisonment in Acca, Palestine as a religious prisoner of the Turkish empire; it was the first time a major figure of the Faith could visit the Baha'is in America. He spoke in large churches and synogogues in New York, Illinois, Colorado, and California telling of the coming of a new age of man.

"This is the a new cycle of human power. All the horizons of the world are luminous, and the world will become indeed as a garden and a paradise. It is the hour of the unity of the sons of men and of the drawing together of all races and all classes..."

The commemoration will be held at Alisal School Multipurpose room on Oct. 17 Sunday afternoon at 1 p.m. There will be a reception and then a short talk.

Evenings for parents

DUBLIN — St. Raymond's Parish is presenting a four - week series entitled Evenings for Parents starting Thursday, Oct. 21 at 7:30 p.m. at the parish hall, 11555 Shannon Ave. in Dublin. Subsequent evenings will be Oct. 28, Nov. 4, and Nov. 11.

The program is designed to bring parents a greater awareness of themselves and their children and is open to all parents regardless of the age of their children. It is to reinforce their belief in themselves as parents and to strengthen their relationship with their children. It is a common sense approach which says to parents, "you can be great, Your children are lucky!"

Private rights vs. public need

When does a "public figure" have "private rights"? And when are a private person's actions subject to public scrutiny?

That is an argument which has greatly involved the nation's press and the nation's highest courts in recent months. It is also a question that will concern each of us, one way or another.

Those who reject "gun control" laws contend that "the right to bear arms is one of this country's oldest private rights." Others would reason that "you give up that privilege when guns become a threat to public safety."

Proposition 14 would, among other things, ask the voters of California to guarantee "access" into agricultural areas for labor organizers who purport to advance "the rights of the farm worker." Farmers and most other business leaders argue that "invasion of private property would be the destruction of this nation's most cherished right."

Within our own community, there is lively interest in our public officials and candidates for public office. Recently that curiosity carried this newspaper into the Grass Valley retreat once held by an incumbent supervisor; and the challenger for that office has found her backyard of some public focus.

(For what it is worth, recent Supreme Court decisions appear to be telling us that "public officals can have private rights which are protected by the laws of libel and slander," while there are moments when "private persons yield those rights when they participate in public discussions and actions.")

The point is that none of us are as "private" as we might have thought, or that might have prevailed a decade or two ago. The laws which others rant and rave about will also impact even the least of us, somewhere along the line. You may not own a gun, but you can be wounded by someone who does; you don't care to own a large dog, but you can still be bit by the neighbor's Doberman.

There is not one of us who hasn't been touched by the events which turned the entire Hearst family into objects of national scrutiny, controversy, even ridicule. The "peoples' right to know" made possible much of that publicity, regardless of the harm rendered one family.

You are not terribly far removed from that same kind of "exposure," if not on a national scale, then at least within the confines of your community. It is a frightening thought, but one that deserves more careful, personal consideration. There are none of us as secure in our "rights" as we might wish to believe.

School debate

Editor, The Times:

The Pleasanton Times carried an ad this past week indicating a public debate between Bruce Newlin, Pleasanton's school superintendent and Tom Zach, president of Amador Valley Teachers Association regarding some of the issues which are currently bogging down negotiations. Dr. Newlin has since decided he does not want a public debate. In a local newspaper he is quoted as saying "I don't think any purpose would be served by a public discussion." Why? Because he feels the taxpayers of Pleasanton are apathetic and would not bother to come and hear the issues debated? Since Ms. Lee and Hohl have written letters in a local newspaper, they probably would come. But what about other taxpayers? Would you, Mr. or Mrs. Taxpayer come? You should, you know!

You have elected a school board to carry out many decisions for you. How many of you do go to a school board meeting, which is public, to hear major decisions? Vintage Hills parents should be delighted to know that busses were reinstated thanks to an eloquent plea by Mark Bewsher who took the time to carry his request to the school board.

Teachers naturally would go to a public debate because the issues directly affect them as both employees and taxpayers. I would also hope that the taxpayer public would be interested in attending. In ten years of teaching in Pleasanton, it is my personal opinion that teacher morale is at its lowest peak. The magical feeling of oneness with the administration and school board is no longer there. A rift is separating us and I am concerned . ...

Teachers would like negotiations settled to the mutual agreement of both parties as soon as possible. After 23 negotiating sessions and nearly 100 hours of discussion with Keith Breone, Carl Krause, and a school principal, very little has been gained by either side. AVTA president, Tom Zach, presented the school board with a letter suggesting the presence of at least one school board members at future negotiations so that the board has a clear understanding of our present position. Considering the statemate and breakdown of negotiations it would seem that direct contact between school board and teachers would accomplish more than going through the two or three intermediary levels which is now taking place.

School food

Editor, The Times:

Your column, "Lilly of the Valley," October 5, was a piece of sloppy journalism. It was completely subjective, biased, and tasteless.

Ms. Ault failed to clarify the central issue. The students want an open campus, perhaps right so. The cafeteria is simply a projection, a scapegoat.

Ms. Ault failed to mention that wide variety of foods are also available (sandwiches, cookies, milkshakes, candy, fruit). Ms. Ault failed to mention that the food is not cooked at Foothill, but originates at Dublin High School. If the food really is bad, why isn't Dublin being singled out? If the food is really the issue, why isn't your columnist investigating all the food at all the sites?

Finally, Ms. Ault failed the citizens of Pleasanton and the standards of her profession with such contemptible writing as evidenced by her put-down of cafeteria employees and their jobs.

It is low indeed to suggest that it might be advisable to abolish their livlihood and valuable services, but following Ms. Ault's lead may I suggest that either you upgrade her service or abolish it?

Bicycle races

Editor, The Times:

If you haven't stopped by to watch one of the LARPD sponsored bicycle moto-cross races at Robert Livermore Park — you should.

The races give kids of all ages a chance to demonstrate their prowess on a bike over one of the finest (and safest)courses in the state.

The only problem is that the races are held only once a month. It seems that the popularity of this event would warrant weekly races. I'm sure the community would support his kind of a schedule and the kids would love it.

Prompt help

Editor, The Times:

Last Wednesday evening our daughter, Jamie, was hurt while riding her skateboard. Now that she is on the mend my husband and I agree we must publicly thank all the many people who helped that night.

I've yet to find out who actually called the police and fire department. Evidently it was a strnger who cared!

The degree of excellence of the service rendered by the Pleasanton Police and Fire Department has got to be recognized. They were there only a few minutes after it all happened. Not only were they most efficient, they were also so very kind not only to Jamie but to both her Dad and me also. The special trauma ambulance that took Jamie to the hospital was equipped with the most modern of equipment. Once, at Valley Memorial, again she was treated with so much care and efficiency. Each of the nurses and doctors treated her so very special!

Of course we do want to also thank our many friends and neighbors who showed so much concern.

We do know we are fortunate to be able to live where people not only can get the best possible care at a time of emergency but also where people really do care.

Two views on 'pot'

Editor, The Times:

On October 6 your paper carried an article written by Bill Cauble on the subject of legal pot. He evidently either uses it himself so naturally refuses to admit it is harmful or he has only read and observed the good things people who favor it would like him to see.

You don't have to read studies. All you have to do is observe first hand the effect of marijuana on our teenager population. It changes energetic, intelligent teenagers into non-caring, docile kids who don't care about anything only where there next joint will come from. Just recently one of the local papers carried a letter to the editor written by a teenager who favored pot. This teenager admitted pot makes you just want to sit around and do nothing — she was comparing it with alcohol.

I am speaking, unfortunately, from first hand experience — I know how it can change teenagers and not just ours. They lose all interest in everything. Kids who were once athletes not longer have the energy to do anything. Smoking just one cigarette a week can keep you under the constant influence of the drug. I have read several studies that have been done on the detrimental effects of marijuana.

Does Bill Cauble realize todays teenagers maybe tomorrows president?

I would like to sign my name but could not risk it being seen in a local newspaper.

'Trivial, childish'

Editor, The Times:

Mr. Cauble's article on Legal Pot should win a prize for being the most trivial, childish and superficial generalization of the subject I have ever encountered. To take that article seriously, one would have to practically believe that the entire economy of this Country is based on Marijuana. According to Mr. Cauble, there is virtually no ill that would not be cured by making it legal. I suspect that Bill Cauble is a High School Sophmore disguised as an Editorialist. As a Probation Officer now for fifteen years in the County, I would point out just a few facts:

1. Little Police time is spent chasing pot users. Most charged with that violation are actually caught in the act of committing some other crime.

2. Paper work would not be reduced. The same individuals for the most part would be coming through the system. Very few respected citizens are being arrested for Pot use.

3. Since my office in Livermore processes all criminals referred by the Municipal courts, I can assure Valley residents that Court Dockets are not over-crowded by pot smokers. Try drunk drivers Bill.

4. With the present release programs in the County, Santa Rita is not conjested with Pot Smokers. Frequently under sentence for this offense they had a more serious offense reduced through Plea Bargaining.

5. New Jails are not being built for Pot Smokers. Calendars are bulging with murderers, rapists, burglars, etc. If you want speedy justice, start examining the legal system itself — and Attorneys.

6. What Mr. Cauble doesn't know about the drug scene would fill this Newspaper. Organized crime is hardly going to go out of business because Pot is legalized. Pushers don't just push Marijuana. In our free enterprise system, the Pusher will continue to sell Marijuana — Only He'll Do It Legally and he'll Undersell The Market. Since Pot will never be legal to kids (I hope) the Pusher will still have the school yards as a market place.

7. I know of no Rehabilitation or counseling service in Alameda County which devotes itself exclusively to working with Pot smokers. On the other hand, I have never et an addict who did not begin by smoking Pot.

Oh, I will not disagree with Mr. Cauble that if Pot is legalized, it will become big business. No doubt the farmer, the tobacco Merchant, the Ad Men will make a fortune. In time we may even have to subsidize farmers for Not growing Marijuana. What I do question is whether this is a goal this Country should strive toward. Is this the Highest aspiration you have Mr. Cauble, the noblest cause you envision?

round the town

One of the most important issues confronting this nation today is ... **garbage!**

Just because you don't hear Mr. Ford and Mr. Carter debating the subject does not mean that Americans everywhere are not deeply concerned these days ... with one can or two ... with the frequency of collection and the placement of that can. There seems to be as many questions about garbage as there are cans in this country.

What America really needs is **a better garbage can.** The idea of stuffing a full week's waste into one 30 - gallon metal container is clearly out of date. Personally, I find just a week's accumulation of empty beer cans and unwanted third class mail is enough to fill one garbage container. Which is why we have two, garbage cans that is. Still isn't enough.

The lady in our house works on the principle of "find a can and fill it." I swear if we had a 100 - gallon container, and it was collected twice every week, she would still face a problem of overflow.

"Don't we have a cardboard box or something to take these few extra things?" she asks, regularly. I remind her that our contract with the local scavenger prohibits the use of such additional boxes, expect during specified seasons of the year, and then only on rainy weekends, or when we're out of town.

Disposing of one's garbage has become one of civilized man's more difficult challenges. It is getting so that a body feels genuine shame for having accumulated the darned stuff in the first place.

"I simply don't know how we get such a load of garbage every week," Lady of House says, with just a shade of remorse. I want to advise her that "man's waste is in direct proportion to his wealth." But that would open up a discussion of family budgeting that is guaranteed to lead nowhere but Trouble City.

"We could fill up a yard bag and then you could carry it down to the curb," is her other standard suggestion. I could, if it weren't for my bad back ... or the fact that yard bags invariably bust when I am half way toward said curb.

Fortunately, our Standard Garbage Collection Agreement allows for "Garden Clippings ONLY" in said yard bags. One is honor - bound under pain of mortal sin not to place kitchen wastes, hat boxes or large rocks in said bags.

(I know for a fact the people across the street regularly break that rule, but that's their business. I'm no snitch.)

In Cedar Falls, Iowa, there is a great movement to place all garbage into disposable bags. A pilot program has been launched. Selected Cedar Falls residents (they do not say who does the selecting, or how) will be provided with "disposable garbage containers." These will be filled — they figure two - per - family - per - week *nd placed at curbside. The garbage collector will then swing by and pick up the whole blessed business, containers and all.

Cedar Falls figures this will do much to abate noise (no more 5 a.m. CLANG! CLANG!), eliminate unsightly cans along the streets (they don't mention unsightly disposable containers) and generally speed up the whole process.

The result, presumably, will be a cost savings to somebody. Not the customer you can bet. But the jury's still out on that one.

If it works in Cedar Falls, the normal procedure then will be to apply for a federal grant, launch a $20 million study, set up a "Department of Garbage" (DOG) and treat waste disposal just like any other simple national problem.

Frankly, I hate to see it come to that. Garbage collecting has been one of the bulwarks of free enterprise. As American as disposable apple pie plates, or the pull - tab beer can. Is *nothing in this land sacred?*

- *I*prefer the idea advanced by a journalist who has been a close observer of the garbage scene. "Why not make garbage collection competitive?" he asks. "Just like we have milk delivery and even bread delivery offered by competing companies, several garbage firms would be invited to compete for our garbage, on a house - to - house basis. If you don't care for the collection service you're now getting, you could always switch to the cut - rate collector your neighbor is using."

It could be an idea whose time has come. I plan to forward it immediately to the Messrs. Ford and Carter. Anything to get them off that other garbage.

Britania

It took a three week vacation to learn why there will always be an England. It's the damned British.

They've got chutzpah. More hair on the chest than a gorilla — swagger that would make an Ali envious.

Mind you, they are not obnoxious. There's is a stoic resolve forged by history steeped in catastrophy. The British have suffered centuries of miserable weather and egomaniac monarchs. They've been bombed and invaded, devalued and denigrated.

You can't do much more to an Englishman. For this, he feels confident, haughty in the face of a world which has tried, and failed, to topple his great stone castles for a thousand years.

Regal demeanor isn't kept behind the mighty walls of Windsor, either. It is there in the tone of a tour bus guide who implores; "Don't ask me stupid questions." Found too in the manor of a theatre goer elbowing through the line to gawk at a box office notice. "You don't mind, do you?" he asks. An affirmative response seems implausible.

Even the dishevelled cockney housewife, teeth and tummy protruding, hair a stringy, flaxen mop, possesses the noble mein to command subservience.

She is parked in the middle of Fleet Street, publishing center for London newspapers. Strapped to the top of her German-made car is a rickety, under-stuffed easy chair.

She spies two young, gah-gah eyed American tourists. One is asked to lug the chair. He can't say why, but he is compelled to acquiesce.

The chair is bound for the Central Institute of London, fourth floor, (there is no elevator) for reupholstery by home decorating students. It is a mile away.

When the decaying furniture is delivered, she says thank you and turns heel on the heaving, gasping American. It was as though he owed her the courtesy. Afterall, hadn't she lived through Hitler's bombs, the collapse of the pound, and the Dave Clark Five. Didn't she deserve aid by the mere fact of her survival?

Perhaps never before have the British been so deserving as in these difficult days.

They have just staggered through one of the driest summers in the nation's history. Farm lands were parched. Water supplies evaporated.

Meanwhile crippling strikes have dented the car industry and cut into England's annual industrial output.

In London, it is estimated that 10,000 unemployed people are squatting in dilapidated homes.

Leftists want to nationalize banking and insurance companies. Rightists want to slice spending for social service. Prime Minister James Callaghan's government may collapse.

Is there panic in Whitehall, or out in Soho? Of course not. Concern, yes. But the British don't scare.

The feeling was explained by an aging little man on a train bound for Calais, where he would ferry cross the English Channel. The timid fellow is an employe of the U.S. embassy in Paris. He had been born in the oldest public house (pub) in Manchester. At least it was the oldest until the Nazis levelled it during the blitz.

"You can't have fear, because fear attracts danger," said the little man.

"I saw a television show about outer space one night," he continued. "The men on the space ship encountered a strange foreign ship. Not knowing what was within, they attacked. They were afraid.

"Well, after the battle, nothing changed. No one was hurt. Everything was the same except for the mentality of the men in the space ship. Fear had been removed from their minds. And when the fear was removed, so was the danger.

Lighter Times

Back in Toonerville, where I once edited a mythical newspaper for that mythical town, they had a good solution to the "problem" of teenage cruising.

You had to attend a Toonerville Town Council Meeting to really appreciate Mayor Dudley Sledge's solution. There were repressive of forces at work on the town council, men like Councilman Jack T. Ripper who suggested dropping a net over the cruisers. "They could breathe, but they couldn't move," said Ripper.

But Mayor Sledge got the votes of Councilwoman Lois Lane and Councilman Milo Fergusaon for his solution, a plan which Ripper called "a typical scheme by mincing liberals".

The town council built a park a mile long for cruisers only. It had 5,000 street lights for maximum night time visibility so cruisers could see each other and lean against the posts. It had wide asphalt lanes to show off cars and their occupants. It even had large, outdoor TV screens, run by the local police department, so cruisers could see what was happening down the street. There was a root beer stand at each end of the mile - long cruising strip and 10 beer stores in between operated by blind clerks.

It was the Disneyland of Cruising. Patrons came from all over America and 10 countries (the Japanese bikers were popular). The city got all the park profits and the last I heard they installed gold - plated, self-cleaning sidewalks on Main Street. It just shows you what creativity can do in city planning.

By Oswald & James Jacoby

Here is a hand from our match-point file. South was Barbara Kachmar of New York, who has won major tournaments under her maiden name of Collyer and her first married name of Cook.

The one-notrump contract was normal although the very favorable lie of the cards made three notrump the normal result. Barbara made four for what turned out to be a match-point top.

East's queen of hearts fell to her king at trick one and a second heart was led to dummy's nine. Barbara returned to her hand with the ace of clubs and led a diamond to dummy's king. A diamond was led back. West won with the ace in order to conceal the queen and played ace and another heart. A spade and diamond were discarded from dummy and East chucked a spade and the diamond 10.

Barbara cashed the king of clubs, led a spade, finessed dummy's queen and cashed the ace. West dropped the king.

Assuming West was telling the truth, he was down to the jack-small of clubs and the last heart. Barbara led the last club from dummy and East followed. Where was the jack of clubs?

West had surely falsecarded once. Why not twice, thought Barbara? In that case he was holding the queen of diamonds, a spade and a heart and East was marked with the jack of clubs. She finessed the 10 and made four odd for a top score.

Warriors in doubleheader

OAKLAND — Basketball fans will able to scout almost an entire NBA Division in one evening Saturday as the Golden State Warriors, now 3-2 in pre - season play after a pair of wins last weekend, host a doubleheader involving all but one Pacific Division team.

The Seattle Supersonics, a playoff team the past two seasons, meet the vastly improved Portland Trailblazers in the Coliseum Arena opener at 7 p.m., followed immediately by the Warriors against the Los Angeles Lakers.

One of the top rivalries in sports, the Lakers and Warriors, could be even more intense this season with the addition of all - time Laker great Jerry West as L.A. head coach and the fact that the Lakers will make only two regular season appearances in the Bay Area.

The Lakers missed the playoffs last season finishing just two games behind Phoenix, but the addition of former Celtic guard, Don Chaney, Mack Calvin, twice named to the ABA All - League team at guard, and top draft pick Earl Tatum, an All - American at Marquette, has greatly strengthened the L.A. roster.

The opener matches another pair of rivals. Bill Russell's Supersonics have made the playoffs the past two seasons and carried both the Warriors and Phoenix to six games before succumbing. Guard Slick Watts leads the Sonics' attack and last season topped the NBA in assists.

The addition of 6-6 rookie Bob Wilkerson from NCAA champion Indiana may be one of the ingredients needed to take the Sonics to the top.

Though Portland's young Trailblazers finished at the bottom of the Division last season, new coach Jack Ramsey, a healthy Bill Walton and an injection of ABA talent should make them contenders this season.

There is little question that Ramsey is one of the NBA's top coaches. In the the three seasons at Buffalo prior to joining Portland, Ramsey's Braves won 137 games. Only Boston, Washington, and Golden State won more games during the same time span.

Wally Walker, the Blazers top draft pick, has been compared to Rick Barry and many NBA scouts rated him the top college forward in the country last year.

The Portlanders really cleaned up in the dispersal draft of former ABA players when they picked off forward Maurice Lucas, a 6-9 powerhouse, who won the Blazers opening game with a slam - dunk at the buzzer over a fellow named Kareem Abdul - Jabbar, and 6-10 center, Moses Malone, who as a rookie with the Utah Stars two seasons ago, let the ABA in offensive rebounds, was 4th in total rebounds and averaged 18.8 points per game.

But the best news is that former UCLA All - American, Center Bill Walton, is healthy and has said his goal this season is to play in all 82 games. When Walton wasn't on the sick list last season the Trailblazers were tough.

Tonight, the Warriors journey to L.A. where the same four teams will gather at the Forum. The Warriors meet Seattle in the 7 p.m. opener followed by the Lakers and Portland.

The Warriors wind up the pre - season in Denver on Monday, October 18, when they meet the Nuggets at McNichols Arena.

NOTES: Following the 96-92 win over Denver last Saturday the Warriors reduced their roster to 15 by waiving rookies Mike Rozenski of St. Mary's and Skip Wise of Clemson...

Both Warriors games, on Friday from L.A. against Seattle, and against the Lakers in Oakland on Saturday, will be broadcast on KNBR radio (680) with Bill King doing the play - by - play. The pre - season finale from Denver will not be aired ...

SR beats Dons, wins crown

DANVILLE — San Ramon High School's varsity cross - country team celebrated homecoming a day early by clinching their fourth East Bay Athletic League cross - country championship in five years here yesterday.

The Wolves, now 4-0, defeated rival Amador Valley, 20-35.

In another EBAL match yesterday Dublin defeated Monte Vista, 26-33. San Ramon also won the frosh - soph match, 25-30 and the junior varsity, 27-28 but lost the girls' competition, 22-33.

Led by junior Mark Baker's fine first place showing, the Wolves went on to capture four of the top five places. Baker, who led from the outstart, finished the three - mile race in 16:54.

Jason Preece, the only senior on the Wolf varsity, was runner-up at 17:09. Jim Anklam, a junior, was third with a 17:15 time, while freshman Brett Baffert was fifth in 17:44. Mark Kendall of Amador was fourth in 17:32.

Mario DaSilva and Casey Safreno were sixth and seventh for the Dons, respectively.

Wendy Behrbaum amd Gael Coensgen were first and third for Amador Valley as the Dons' girls team remained undefeated.

Tom Lawson, Pete Tortolani and Pat Ross led a 1-2-3 sweep in frosh - soph action for the Wolves.

Dan Gasbak of Amador Valley won the junior varsity race with a 12:39 clocking. Mark London of San Ramon was second at 12:41, while the Dons' Jeff Parks was third at 12:43.

San Ramon takes its undefeated league record into the Antioch Invitational tomorrow. Amador Valley, now with a 3-2 mark, also will compete in the Antioch tournament.

THE BETTER BARGAIN: AMERICA'S TOP SELLING IMPORT STILL AT '76 PRICES.

If you hurry, your Toyota dealer can show you why '76 Toyotas have been a bargain all year long. And when you look around and see what others are giving you at '77 prices...a Toyota is even a better bargain now. But it's more than Toyota '76 prices that make them a better bargain.

The better bargain is quality. What good is a good price on a car whose durability is questionable? Toyotas are built tough with unitized welded construction to help eliminate squeaks and rattles. And then each Toyota car is completely submerged in primer paint to protect against corrosion and rust. In fact, 9 out of 10 Toyota cars sold in this country are still on the road.

The better bargain is economy. Just as important as Toyota's low purchase price is its total economy. Other cars may offer so called deals with huge savings. But those same cars may eventually eat up dollars with high operating costs or low resale value. The economy of operation of a Toyota can help keep your new car bargain a bargain: Check resale values at your Toyota dealer. You'll like what you see.

The better bargain is the top seller. Is a bargain getting something off on a car nobody wants? Not likely. This year Toyota offered new car buyers a challenge. We said, "If you can find a better built small car than Toyota...buy it." This year, more people are buying '76 Toyotas than any other import car. You see, a real bargain is always a bargain.

THE BETTER BARGAIN TOYOTA

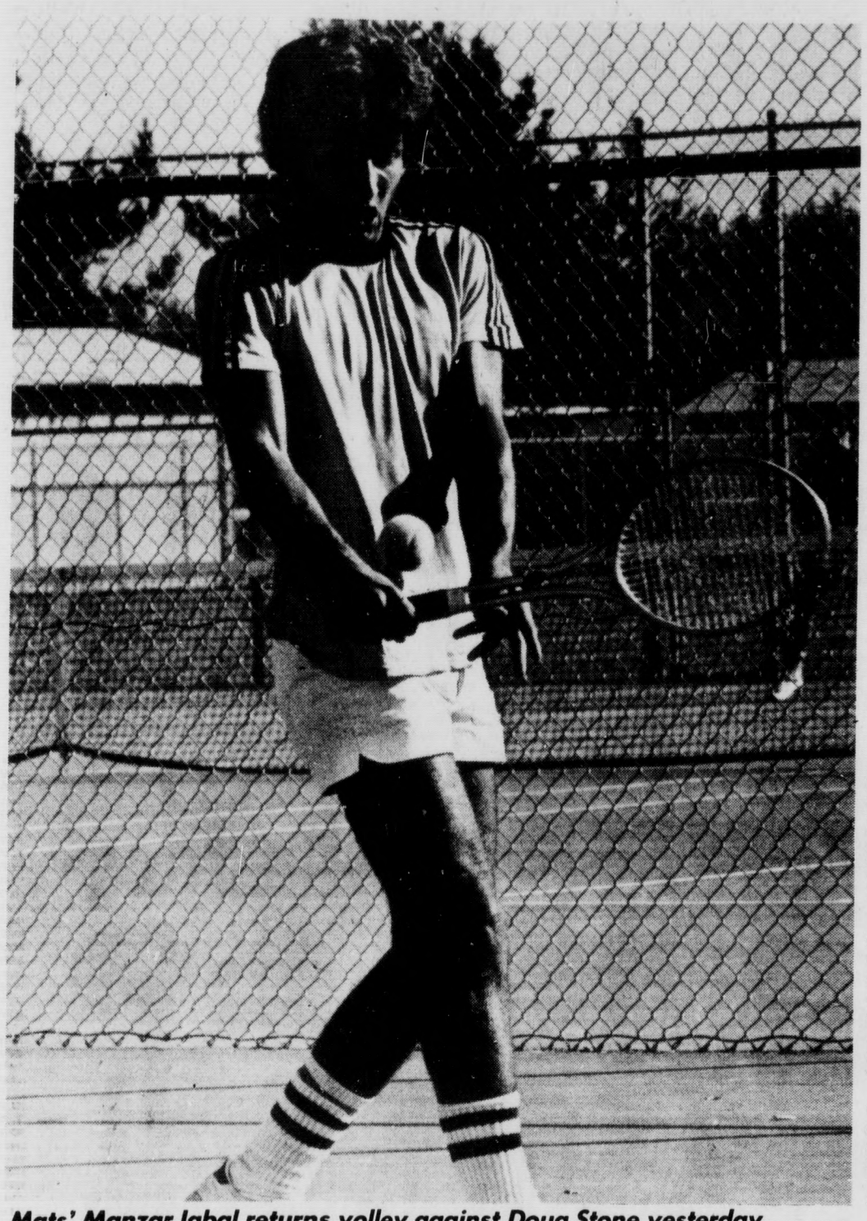
Awesome MV netters top Granada



Mats' Manzar Iqbal returns volley against Doug Stone yesterday.
(Times photo by Steve Atkinson)

The big showdown between East Bay Athletic League tennis powers Monte Vista and Granada was reduced to mere tennis exhibition by the Mustangs yesterday as the Alamo gang swept to a 7-0 win over the Mats in Livermore.

The win virtually assured the stacked Mustangs of the EBAL title, with only four games remaining on the schedule. Granada dropped two games off the pace, both of their losses coming at the hands of the 'Stangs.

What Monte Vista coach Floyd Baker calls "country club psychosis" translates as trouble for the rest of the EBAL in the next three or four years. Freshmen Tripp Gordon, Guy Schalin and Dave Parker all came away with impressive wins while sophomore Doug Stone and senior Dan Bergmann all victorious.

The doubles competition, something Granada desperately needed to win in order to have a chance at the 'Stangs, went to Monte Vista in two split - set games. Mike and Gary Niebur avenged an earlier loss by beating Mike Knell and Tony Delgado, 3-6, 6-4, 6-4.

Van Schalin and Jeff Southwick, meanwhile, rebounded from an opening set 6-2 loss to whip Chris Watchmaker and Paul Hurdlow, 6-2, 6-2.

"They're a solid team all the way down," commented Granada coach Lee Williford. "Their kids came back in the doubles and kept their composure, and Bergmann played real well.

"I thought (Greg) Corallo played well," pointed out Williford. Corallo battled Parker to a 6-4 loss in the first set and went to 6-3 in the second. "The rest of us just kinda got had."

Times SPORTS
Dave Weber, Editor

Bergmann handed Granada's Murray Dean his first loss of the season while playing possibly his best of the year in winning 6-3, 6-1.

"Bergmann told me before the game, 'I'm going to win today'," revealed MV mentor Baker. Bergmann lost to Dean in the first meeting between the two players.

Doug Stone was unhappy with his 6-2, 6-2 win over Manzar Iqbal. "I didn't play too well today, with all of this stuff going on." Stone was referring to the constant chatter of the crowd witnessing the Granada - Dublin frosh football game directly adjacent to the courts.

Schalin topped Granada's Bill Jenkins, 6-3, 6-2, while former number one singles player and southpaw Tripp Gordon whipped a stubborn Jeff Mackanic, 6-3, 6-1.

In another EBAL tennis match yesterday Amador Valley won four of the five singles matches and both doubles tilts in taking a 6-1 win over host California.

David Finn of Amador Valley (4-6), defeated Mike Daugherty, 6-4, 4-6, 6-4.

Gaels, Mats tangle in key tilt

Offense could be the name of the game when Granada tangles with Dublin on the Gaels' field at 8 p.m. today in a key East Bay Athletic League football game.

Both teams boast explosive offensives. Dublin has averaged 402 yards total offense a game and Granada has rolled up 291.5. The teams rank first and third in the league respectively in that category.

In other EBAL games tonight undefeated Livermore is at San Ramon, California travels to Monte Vista and Foothill plays Amador Valley.

A victory is a virtual must for Granada since the Matadors are 1-1. Dublin is tied for the EBAL lead with Livermore: both teams posting 2-0 marks.

Dublin has been one of the highest scoring teams in the Bay Area this season, over 35 points a contest. The Dons were "held" to a 19-14 win over Monte Vista last week but the score didn't tell the whole story.

"Both Boulware (Jim) and Gangnuss (Chuck) were in top shape during the contest," Gael coach Wayne Re said yesterday. "Jim has the flu and Chuck had his "bell rung" when he was hit on the head. They're both healthy now, though."

If that's the case then the Matadors could face an awesome task in stopping the Dublin offensive machine.

Boulware has run for 364 yards in the two EBAL tilts thus far and has rung up over 1,000 yards for the whole season. The 6-foot, 190 pound athlete could be the best running back in the Bay Area. Gangnuss also is a potent runner, having run for 243 yards and a 10.1 per carry average in EBAL competition. The lanky senior(the defending North Coast Section high hurdles champion) can also catch a pass or two.

"We had a good passing day against Monte Vista," Re remarked. "Sean Mays threw for two touchdowns in that game, the second time he's done that this season.

"We were hurt by mistakes against Monte Vista," Re went on. "But our defense played well."

The Gael defense will have to play well to stop the well-balanced Matador attack.

Granada rolled over Amador Valley 42-12 last week as ace running back Vance Rushing picked up picked up 132 yards in 12 carries. Rushing is second in the EBAL rushing statistics with 305 yards in 29 carries.

However, Rushing isn't the Gaels' only offensive threat. Quarterback Steve Robison has been gradually improving this season and poses a threat with the pass and the run.

"Robison can pass and run equally well," admitted Matador coach Don Couch.

Indeed he can. In the Amador Valley game Robison completed all five of his passing attempts.

Chambliss's HR gives NY flag

NEW YORK — Chris Chambliss walloped a first-pitch home run in the bottom of the ninth inning Thursday night to give the New York Yankees to a 7-6 victory over the Kansas City Royals and the American League pennant.

Chambliss' dramatic blow, which overcame a dramatic game - tying three - run homer by the Royals' George Brett in the eighth inning, set off a wild demonstration on the field at remodeled Yankee Stadium as a record crowd of 56,821 celebrated the Yankees' 30th American League flag and their first pennant in 12 years.

Chambliss, who had driven in two runs and scored another earlier, stood at the plate to watch his blast soar towards the right centerfield stands. As it dropped majestically into the seats, the husky first baseman thrust his arms in the air and the stadium exploded with the roars of the crowd.

The victory, in the deciding game of the best - of - five playoff, sent the Yankees into the World Series beginning Saturday in Cincinnati against the defending champion Reds.

Chambliss had to share the hero's role with Mickey Rivers, who drilled four hits — **By Associated Press**

Mats roll on

Someday Granada High School's girls volleyball team is going to have a good first set and they're going to blow their opponents out of the gym.

Until then the Matadors will have to be content with losing the first set and winning the next two for the victory. This is just what happened yesterday when the hosting Matadors rolled over California, 9-15, 15-12, 15-8 in East Bay Athletic League competition.

"We always have trouble with our serves in the first set," admitted Mat coach Anne Krummes. "However, California played good defense."

The Mats took over in the second set when Mary Ledezma scored six times from serves.

In the final set Ledezma scored the first two points while serving and Lisa Bonetti added seven to cinch the victory.

"Lisa really played well in the center and on defense as did Lynn Kranich," Krummes went on. "They also did well offensively."

Granada is now 6-2 in EBAL play. The California junior varsity took a 2-15, 15-3, 15-3 win.

SJ's Rodriquez faces battle for job

SAN JOSE — After his school record-setting 16 field goals last year, San Jose State University kicker Lou Rodriquez received letters from several professional football teams.

They way its going this season, Rodriquez is lucky if his mother writes.

The 5-11, 175-pound senior hasn't fared that badly, converting two of four field goal attempts and 15 of 16 extra points. But head coach Lynn Stiles has often rotated Rodriquez with junior Randy Johnson.

Stiles went so far as to leave Lou in San Jose last week when the Spartans traveled to Albuquerque to take on New Mexico.

"When I heard I wasn't going, I got sick," Rodriquez recalled earlier this week.

Rodriquez believed his senior status and past record warranted a trip with the team.

"I've only got five games to go and he (Johnson) is only a junior," said the ruffled place - kicker. Stiles explained why Johnson got the kicker's seat on the plane.

"It's been very tough competition between Johnson and Lou," Stiles said. "We had a contest this week and Rodriquez held a slight edge in field goals. I think he kicked six of 10 while Randy had five of ten.

"But, Johnson did better on the kick-offs

Stiles added, "I would be happy no matter which kicker I chose to go."

Rodriquez disagreed with his first year coach.

"I won the test of extra points and field goals so I think I should have gone," Lou countered. "It just isn't fair."

What's the situation now that the 3-3 Spartans are returning home against Long Beach State Saturday?

"Randy will handle the kick-offs and Lou will start off doing the field goals and extra points," Stiles said.

Stiles, whose Spartans have dropped their last three games, said, "There is no clear cut choice when it comes to kickers on this team. I'm glad we have both Randy and Lou."

Johnson has converted only one of seven field goal attempts, a 30-yarder. In all fairness to the junior from San Marcos, four of six misses have been from over forty yards.

A still mystified Rodriquez mumbled, "I hope they take me to San Diego," noting the November 6 game with San Diego State.

Rodriquez began his football career at Lincoln High School in San Jose where he was named all-Central Coast and went on to San Jose City College where he received honorable mention All-American.

Rodriquez's longest field goal at SJCC was 47 yards, but, he noted, "I once had sixty yarder hit the cross-bar."

Rodriquez 16 field goals in 30 tries led the nation last year while converting 29 of 33 extra points. He led the team with 77 points, fifth on the all-time single - season list for the Spartans.

Johns bows to Hebert

LIVERMORE — Recreation director candidate William S. Johns yesterday announced he was quitting the race in favor of Bob Hebert.

Johns said he was withdrawing from the Nov. 2 election because of "commitments to the new Winter Leagues and other baseball leagues."

He noted Hebert "like myself, is for the youth of Livermore and is interested in achieving a complex so that our youth may have fields to practice — a place they may call their own and not have to hassle everytime they seek a field to play baseball."

Hebert told The Times a complex is needed like one in Milpitas, "with fields for Bobby Sox Leagues, Little Leagues, Babe Ruth Leagues — because each one needs different size fields."

"Kids have a hard time scheduling the few Livermore fields now for both games and practice," said Hebert.

Geirsch and Dow

Louise Giersch, candidate for supervisor from the fifth district, re-emphasized her support of the proposed Dow Chemical Co. expansion plans at a recent fundraiser in Pittsburg.

Her position on well - balanced growth points out that without a healthy economic base in the county the job market will decrease, housing will not expand, the strong tax base provided by commerce and industry will drop.

"The homeowners property tax will be footing all of the bills for services in the county. This situation must not be allowed to happen. A hard line must be held on property taxes, and strong support must be given to a continuing and growing industrial tax base."

For more information on Giersch's campaign, call 754-7650, or 439-2015.

Eric on television Sunday

Eric Hasseltine, candidate for supervisor from the fifth district, is scheduled to be a guest on the KTVU channel 2 television program, "On The Square."

The program will be aired Sunday, Oct. 17 from noon to 1 p.m. Hasseltine, the largest vote recipient in the June primary election, wll discuss issues of the district and outline programs he hopes to implement as supervisor.

ILWU's stamp for Raymond

Valerie Raymond, candidate for the Alameda County Board of Supervisors, has received the endorsement of ILWU, the International Longshoremen and Warehousemen's Union of the Greater East Bay.

Raymond has also been endorsed by Congressman Pete Stark and State Assemblyman Bill Lockyer.

City councilpersons who have added their endorsement to the list now include Don Dillon and Art Lampert of Fremont, and Nick Randall and Gail Steele of the Hayward City Council.

Education group for Murphy

Incumbent Alameda County Supervisor John D. Murphy has been endorsed for re-election by the Concerned Citizens Committee, an educational, non-partisan, non-profit state corporation.

Robert S. Allen, current District Five incumbent on the Bay Area Rapid Transit Board of Directors, was also endorsed for re-election by the CCC.

Ron Monks and Marlin A. Pound were endorsed for election to the Livermore Area Recreation and Parks District Board.

Jim Mills, Mori's foe endorsed

Jim Mills, the Republican candidate in the 9th Congressional District, and David Funsch, Assemblyman Floyd Mori's opposition in the 15th Assembly District, have received the endorsement of Citizens for Law and Order.

The recommendations for the Nov. 2 election were issued to the statewide organization's 1,800 members who vote in Alameda and Contra Costa County.

Dr. S.I. Hayakawa was recommended for U.S. Senate, while Bob Vickers, Philip Breck, Mills and Herbert Smith were recommended for the 7th, 8th, 9th and 10th Congressional Districts, respectively.

In the State Senatorial races, CLO has endorsed John Nejedly in the 7th District, and Marvin Lichtenthal in the 9th District.

CLO has recommended William B. Rumford, Jr. in one of the Alameda County Supervisorial races. No mention was made of the other race matching incumbent John Murphy and Valerie Raymond, for the board position representing the Amador - Livermore Valley and Fremont.

Mills is opposing Fortney Stark, the Democratic incumbent in the 9th District.

Monks for LARPD Board

Editor, The Times:

J.C. Stear and other Livermore taxpayers will be happy to know that there is an LARPD candidate who intends to "beat some of the stuffin' out" of the "LARPD tax gobbler." The candiate is Ron Monks. In his letter to the League of Women Voters (dated October 1, 1976) he responds to the question of land acquisition and park development," ... we cannot currently afford more new parks. State grants to buy land and develop new parks do not relieve us of financial burden. Land acquisition and development costs are only the tip of the iceberg. Beneath the surface lie escalating maintenance costs, vandalism, exorbitant insurance premiums and lost tax revenues.

Let's adopt a more mature and responsible attitude in this regard. We should focus our attention not on new parks but upon the improvement and efficient use of our existing park system."

Ron Monks is sincere and honest in his dealings with his fellow man. He is young, bright and quietly determined. He is my choice, but then he always has been and always will be.

Mrs. Ron Monks

Jim Mills for Congress

Editor, The Times:

Hooray for Jim Mills, Republican Candidate for Congress! We now have a candidate that will stand up to the big money, liberal spending and idealogies of Pete Stark.

At Shannon Community Center last year, Mr. Stark stated to a roomful of constituents that "even if 100% of my constituency wanted me to vote Their way, I would vote the opposite if I didn't approve." Who's Stark representing? Himself? Washington? Certainly not us!

Therefore, I urge you to call Mr. Mills at Campaign Headquarters at 829-1190 and let your feelings be known. If he's your candidate like he is mine, give him your monetary and moral support ... and put a campaign sign in your front yard.

This valley has never been properly represented by Mr. Stark, and it's about time we let him know in a way that sinks in ... at the polls.

Let's give Mr. Mills the opportunity to represent All the people.

Festival kudos offered

Editor, The Times:

Kudos to the organizers of the Cultural Arts Festival, to the many behind - the - scenes volunteers and to the artists, crafts people, performers and musicians who gave freely of their talents to bring Livermore to life. This is the most worth while event that people of all ages can enjoy every year free of cost. And it is not merely a treat for the senses; as in the rodeo, Sommerfest, and other events, there is the added pleasure of meeting friends, renewing acquaintances, and seeing people whom even their neighbors do not ever see. This serves to create a feeling of belonging to the community.

It is this latter benefit whose value we must not under - estimate when assessing the results of the festival.... We felt the festival had something for everybody. The memories of the festival will be among the things our youngsters will always cherish about their hometown after they grow up.

Perhaps there will be few problems with the festival if it does not increase much in scale. But the potential for improvement in variety and human interactions is unlimited.

Newspaper Week salute

Editor, The Times:

On the occasion of the observance of National Newspaper Week, October 10 — 16, I wish to commend The Times for the exemplary public service you have rendered during the past year by publishing pertinent items of interest to veterans and their dependents living in your circulation area.

As you know, we in the Veterans Administration are continually seeking better ways to communicate with the Nation's veterans so that they will be more aware of both their benefits and responsibilities under existing laws.

If, in any way, we may be of assistance to you in the future, please do not hestitate to contact us by writing to Veterans Administration Hospital, Livermore, Ca. 94550, or calling us at 447-2560, extension 200.

Again, congratulations to The Times on the observance of National Newspaper Week.

Best wishes for continued success.

Sincerely
James M. Fleenor

Halloween party set in Dublin

DUBLIN — A Halloween Happening will be held on Oct. 28 at Shannon Park Community Center, 11600 Shannon Ave., Dublin from 7 to 9 p.m. in the social hall.

The Valley Community Services District is sponsoring the event.

A pumpkin pie eating contest for ages 13 — 17; 18 and up will be held. Pies will be donated by Senior Californians of Dublin - San Ramon and the Junior Women's Club of Dublin - San Ramon. Pre-registration will be required because of a limited amount of pies. Registration will be at Shannon Park either in person or by telephone. This will be a first come, first served basis. Deadline for registration is Oct. 27.

Also, there will be a Jack - O - Lantern decorating contest for ages 3 — 5; 6 — 8; 9 — 11 and 12 — 14 years. The pumpkins will be judged for largest, smallest, most original and ugliest.

Participants must have their pumpkins at Shannon Park on Oct. 28 no later than 5 p.m. Ribbons will be awarded to the first three places in each event. Every participant will receive a certificate.

To top off the evening a film will be shown starting approximately 7:45 p.m. in the social hall. The title is "Comedy of Terrors."

Admission to all Halloween Happenings is free. For further information please call 828-7711.

Coed volleyball

PLEASANTON — It's a 7:30 p.m. start every Wednesday night during October for the recreation department's coed volleyball, but the starting time will change to 8:30 p.m. in November.

The ball boppers get it going at the Foothill High School gymnasium and cost each evening is 25 cents.

Voluminous

Diana Sprague, Gretchen Clatworty and Julie Casamajor representing the Pleasanton Library League, sorted through books preparing for the League's annual book sale. The event, scheduled for Saturday, Oct. 16 from 10 a.m. to 5 p.m. at the library, will have an assortment of books from "Curious George" to "Combustion Engineering" available for sale. Special prizes being offered will be a film showing, dinner for two at La Rochelle and gift certificates from Plaza Books and Sage Books located in Pleasanton. Proceeds from the sale will go toward purchasing books or equipment for the library. Past donations included a film screen, business reference books and the Dictionary of American Biography. In case of rain, the sale will be held in the Cultural Arts Building.

Pool's progress

The deep water pool at Amador Community Park is taking shape now that the three meter and one meter diving boards have been installed. The pool is expected to be ready for use in 30 days. It was built at a cost of $147,000 with most of the funds coming from state proposition one, passed in 1974, and from federal revenue sharing.

Aid to prosecutors

The California District Attorneys Association will create a law and motion department on or about Dec. 1 as the result of an $180,000 federal grant received Sept. 30.

The grant was awarded by the Law Enforcement Assistance Administration (LEAA). The department to be setup will assist California's almost four dozen rural counties.

Greg Brady, court specialist with LEAA in Washington, D.C., remarked that LEAA has been concerned for some time about the limited amount of assistance made available to rural prosecutors offices.

He added, "In the vast majority of cases, the large, metropolitan prosecutors' offices obtain such grants."

Brady acclaimed the CDAA rural law and motion project as the first of its kind nationally, and added that it may serve as a model for several other states.

The project is but one of the several special programs conceived and implemented by CDAA executive director George Nicholson since assuming leadership of the Association in July. It will be under the supervision of Thomas Condit, CDAA legal affairs director.

Nicholson was senior trial eputy in the Alameda County District Attorneys office before taking the CDAA post.

California's 58 district attorneys offices range in size from large metropolitan offices, such as that in Los Angeles, which has almost 600 deputies to rural one-man offices. Thirty-eight prosecutors in California have staffs of nine or less deputies.

The problems created by defense motions, writs, and appeals become critical in rural prosectuors offices where deputies are too few and too busy to specialize. In these jurisdictions, experienced defense counsel can generate a sufficient number of writs, motions and appeals to literally choke prosecutors on single cases.

Death by fire

Every hour fire destroys or damages 67 American homes.

Every hour and 20 minutes, one person, usually a child or elderly person, dies in a dwelling fire.

These figures from the National Fire Protection Association research are the measure of the public's failure to heed fire hazards and the result of peoples' failure to correct them.

There is no mystery about the cause of most home fires : a carelessly discarded cigarette left to smolder in an overstuffed chair, electrical circuits overloaded or overfused, uncleared trash and rubbish that breeds fire.

Lives are lost when the simple rules of safety are violated — smoking in bed, leaving children alone in a house, neglecting to teach youngsters that matches and lighters are not playthings.

Fire Prevention Week was last week, but it's never too late to think about these things and remove hazards and reform habits. Action now can make you and your family safe for the months ahead.

Sun-Moon

Motorists along I-580 between the Livermore Valley and Castro Valley have been treated to a spectacular pair of globes of light in the sky the past few days. Heading west in the evening, people saw an ebbing golden sun, distorted in haze, sinking behind the rolling hills. A look over the shoulder provided a glimpse of the radiant white full moon.

Dr. K and some sewer snafus

LIVERMORE — Proposed modifications to the LAVWMA pipeline pact between Pleasanton, Valley Community Services District and this city is just too drafty as far as Livermore city council members are concerned.

The council postponed discussion of the matter two weeks when confusion reigned at this week's meeting over suggested changes.

It seems some of the council members were working with the fourth draft of the document and some were working with the third draft, not aware of the proposed changes.

Then there was the question of public reaction if the pact is approved before or after the Nov. 2 election when voters decide the fate of an $8.3 million bond issue for the controversial pipeline.

Councilman Dale Turner noted that if the joint powers agreement is changed substantially after the election, people in the valley may think something is amiss. He urged the item be wrapped up before the election.

Councilman Glen Dahlbacka said the election results could help officials decide what should go into the agreement.

"It's a case of damned if you do, damned if you don't," quipped Mayor Helen Tirsell. "Maybe we should get Henry Kissinger here to straighten in out."

First towers choice goes unincorporated

Alameda County Bureau

OAKLAND — Towing companies in the county's unincorporated areas will get the first shot at removing abandoned or illegally parked cars and trucks under a policy statement approved by the board of supervisors this week.

"Several" towing companies in the county's non-cities of Dublin(and Castro Valley and the rural areas asked sheriff Thomas Houchins to use them exclusively for towing in unincorporated areas, according to a memo from assistant county administrator William E. Davis.

But under the resolution passed by the board, the sheriff's department will rotate among towing firms in the unincorporated hamlets, and use city based companies only if county based companies are not available.

Livermore wants back on list

LIVERMORE — City officials plan to re-submit an application for state funds to expand the water treatment plant.

Faced with a treatment plant that is already committed to its full capacity of five million gallons a day (MGD), the city has for some time been seeking funds for expansion by another 1 MGD.

Last month the city council was shocked to hear that Livermore's original application had not made a five year priority list it thought included the city.

City Manager Bill Parness told the council this week he was advised by a staff member of the State Water Resources Control Board "the best recourse is to resubmit."

State policy does not permit any municipality to receive more than one grant for expanding treatment plant capacity.

Livermore has received two state grants. The first one, in the late 1960's when the plant was expanded from 2.5 MGD to the present 5 MGD, preceeded the policy.

The second, in 1974, was for a treatment process modification for increasing standards.

Parness said state officials denied Livermore's placement on the priority list because of a misunderstanding the city had already received its quota of assistance.

The resolution passed the board unanimously with supervisor Joseph Bort excused from the meeting.

Benefit for historical center

DUBLIN — The Dublin Preservation and Historical Society is sponsoring a fund - raising event to earn money for completion of the Heritage Center.

It will take place Sunday, Oct. 17 from 12 noon to 5 p.m. on the grounds behind Old St. Raymond's Church.

Tickets will be $2 for adults; children free. The money raised will be donated to a Heritage Center benefit fund.

Arts and crafts as well as antique cars will be on display. Wine and cheese tasting will be available as well as other foods. Door prizes will be awarded.

Livermore open house

LIVERMORE — Back - to - school nights have been scheduled at East Avenue Intermediate School and Livermore High in coming weeks.

Parents and community members are invited to open house at Livermore High at 7:30 p.m., Tuesday, Oct. 19.

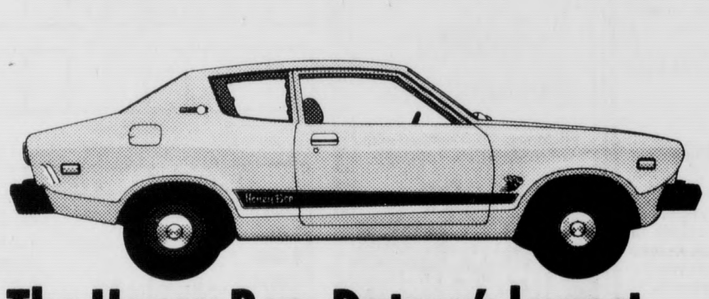
Why pay higher '77 prices?

You can still buy a new '76 Datsun at a '76 price. Right now!



The Honey Bee. Datsun's lowest priced car. $3014.00*

What kind of car can Datsun offer for such a low price? Surprisingly, quite a lot. For example, you get Datsun's durable 5-main-bearing engine, flow-through ventilation, electric rear window defogger, inside hood release, bucket seats up front, and all-vinyl upholstery. You get an EPA mileage estimate of 29 MPG City and 41 Highway. Your actual mileage may differ depending on how and where you drive, the condition of your car and its optional equipment. A brand-new 1976 Datsun for around three grand. Best act quickly, supplies are limited.

Datsun's F-10. America's lowest price front wheel drive wagon. $3569.00*

If you've shopped wagons, you know what a bargain F-10 is. Reclining bucket seats, a flat-loading floor, tinted glass, electric rear window defogger, power assisted front disc brakes. In short, a lot of the nice little things that make a car "liveable." Some people ask you to pay extra for them. Don't you do it. Because they're all standard at no extra cost on the F-10.

710. Datsun's family-sized sizzler.

If you're looking for spacious accommodations at family rates, the 710 has it all. Its brawny 2000cc overhead cam engine helps make it an outstanding road performer. Loaded with no-cost extras. Comfortable, dependable, economical, in your choice of hardtop, 2- and 4-door sedans, 5-door wagon.

Li'l Hustler. America's #1 Selling Small Pickup.

The one that started the small truck trend. With all the comfort, economy and durability that's made it America's best-selling small pickup for the past 14 years. Your choice of Standard, 7-foot Stretch bed, and exclusive luxurious King Cab™ models. One of these three is just right for you!

We'll say it again: Why buy a new car at higher '77 prices when you can buy a brand-new value-packed '76 Datsun at the lower '76 price? See your nearby Datsun Dealer. *Right now!*
